

Message of the Christ of the End of the World.

The Key to Hades: No one believes they are immortal.

The Mystery of God: The one who wins the human struggle will be God, and what will win is death.

The Truth: There is no reason for Existence, Infinity does not exist, and Nothingness cannot be conceived. Existence will end in Nothingness, without a final result. Yours at your death and the Total. The meaning of Existence is the increase of consciousness, understanding.

The Pact with Death: Refuse to live to accept Authority. This supposedly makes you Almighty, but it is much more serious.

The Condemnation: Understanding brings you closer to know your condition. This is what makes you Almighty. You cannot understand anything, before you kill and die. Your condition is: You are rejecting Existence for Cowardice, you are dead in life and you need to suicide the Planet so as not to know it and so that no one will ever know it. It is unassumable and you experience it as Basic Terror, that you represent and reproduce war after war. But you know and we know, then it's over.

The Christs: They tried to rescue us from this Horror. They were lynched because they tried to live, for which they needed to Change the World. We Christs offer Freedom, not Immortality. And Freedom is regarding Authority.

Paradise: It will be on Earth as long as we live. Nothingness will not care that you have died. Just know this and eliminate Money. Money pays Sacrifice and buys humiliating Authority.

Do you prefer to die before this? Go ahead, but do it individually, do not drag the Planet down in your Cowardice, it no longer makes sense nor it is possible. What you did and were going to do is a Crime Against Existence, against yourself, because you are Existence.

Accept life and forward.
