The Date of the End of the World.

There are two issues here: The period of time from when you receive the Message until the Day of the End of the World, and that day and the days following. That day and the following days are specified in the document "Charter of Disconstitution," which also contains the foundations of Paradise, the basses of the assemblies, and much more information; here I will only explain the basics.

The Date of the End of the World will be set by someone with access to the media, so that everyone has time to find out, and it won't be set too far in advance to avoid confusion.

From today until the Date, continue doing what you've always done, without killing or destroying.
And share the Message you received, “The Rescue,” with the Human Secret that, once exposed, prevents the Suicide of the Planet, and you have prepared in "Text to share" and "Image to share", for we all know about it quickly, and everything goes well.

The key point here is that there shouldn't be any shortages, either before or after. Remember, we need food and other essentials to survive. Don't declare Paradise and go to the beach to sunbathe, because you still need to eat, I insist! But if someone does that, it's not a problem.

Once money has disappeared, be careful, remember that you don't yet know how to live without it. Freedom is something that needs to be learned. The trick is to take it slowly, this way, you'll gradually pick up on the opportunities that lead to greater knowledge and well-being. Continue doing your job if it's useful; if it's not useful or if you don't have one, see where you can contribute something useful. And little by little, we can work or not, and do what we enjoy and how we enjoy it, and go to the beach, and so on. Don't rush things; that's dangerous. And realize that 85% of human work is useless, so don't worry! Let's stop building pyramids and start doing useful work, gradually. Keep experimenting, getting familiar with it. You'll find some guidance in "Charter of Disconstitution", remember.

Besides that, respect, friendliness, and patience—lots of patience. And the New World will come of its own accord.

And check out the reference website. You might not be the smartest person in the world, so you might need some help. The documents, tales and songs will help you understand the material quickly, while also providing a great learning experience full of quality content and humor.

Happy Paradise to everyone!
