

The Bug.

Seeing no solution to the obligation to live under Humiliation, you can only be a Coward. You hate yourself and, being impossible to conceive Nothingness, which is Death, you join the Human Secret: The Eternal of you is your Cowardice. You exchange Existence for the life granted by God, which is the bet that you will never be discovered, because first you will Suicide the Planet. You are discovered.

You were doing it! To leave your corpse worshipping the Corpse of God, the human being Victor of the Human Struggle, the One who Humiliates All of Humanity, with the Mark of Submissive Coward on your forehead, taking the Almightyism of Death.

Hence your macabre smile, because you cannot be stopped. Whoever kills you becomes an aspirant to God. You know for sure that Death is Nothingness, and that we all know it. You are not a Coward in the face of Death, but in the face of Humiliation. Not to submit, because you had no other option, but to agree. The smartest, the most foolish, and the most Coward in the World. You win in everything. And you will be reunited with God in Eternal Cowardice having rejected Existence. Of course, you cannot die, what Horror!, you have this Rescue, Salvation, pending. When it did not arrive in time, you put the Sign on your grave.

That's it, it's over. Here ends the Misunderstanding that began with the Ritual Burial 200,000 years ago. No condemn, Paradise while you live.

Let's move on to Global Direct Democracy, chaotic, without Presidency nor Money. I've already told you here Truth, Key of Hades, Mystery of God and Human Secret. At www.nuevaera.info the Basics of Paradise, Documents, tales, songs... And the simple plan. Existence will not judge us.

Look at a cemetery. Don't see dead. Feel those Signs right in front of you, screaming: "I wanted to be rescued. Do it for me too, please. Keep in mind the desperation of all Humanity throughout the ages. Know Freedom yourself, for me too, and do not pass through Hell, nor remain you, nor leave all Humanity of all times in Eternal Cowardice and, above all, do not die flooded in the Existential Anguish from which you flee toward Collective Suicide; instead, let yourself be flooded by the Immensity of Existing, which is Glory, and which is what truly scares you, and what you are Fighting against, you Fool!"
